¹This category includes bouldering, as well as artificial climbing walls, buildings, and so forth. These are also added to the count of each state and province, but not to the total count, though that error has been made in previous years. Also, the Practice Cliffs category has been removed from the U.S. data.

(Editor's Note: The total reported for the category Injured in Table I above for 1998 was 281. It should have been recorded as 138 and the Total for 1998 should read 4234.)
